

Community Alliance

The Community Alliance is a partnership of bassac, Community Matters and the Development Trusts Association.

Working jointly, our vision is to have a Community Anchor in every neighbourhood and provide a wide range of services and products aimed at supporting strong and sustainable anchor organisations.

Download our joint publication [*Anchors of Tomorrow: a vision for community organisations of the future.*](#)

The Community Alliance operates both nationally and regionally.

At a national level the three organisations are cooperating on seven projects:

- Promoting [Visible](#) as the main accredited standard for Anchors.
- [Anchors of Tomorrow](#): exploring new approaches and models of delivery for the Community Anchor Organisations.
- [A Leaders of Tomorrow](#) programme to help current staff at anchor organisations develop into tomorrow's CEOs.
- [Voice](#): helping Community Anchors to look strategically at their advocacy and campaigning activity.
- [The Healthcheck](#): a quick way for new and emerging Community Anchors to benchmark their operational and management procedures.
- [Knowledge and Skills](#) Exchange to support peer learning.
- Assembling a national evidence base on effective community development approaches pursued by Community Anchors.

At a regional level our Regional Coordinators work closely with their DTA and bassac counterparts to provide support and advice to all our members, a coordinated series of workshops, conferences and networking opportunities, and a voice at the regional strategic level for the concerns, needs and aspirations of our members. For further details on what is happening in your region please go to [Community Matters Locally](#).
